Predictability and stability are just as valuable as performance.

Grow ahead with confidence.

NEXUS represents a new direction in swine genetics, created for producers who want to move forward with greater confidence.

It combines the best of two proven breeding philosophies - Hypor and Danish Genetics - into one strong solution. With a focus on predictability, stability, and performance,

NEXUS reduces uncertainty and unlocks consistent results.

More than a product line, it's a brand built on health, efficiency, and innovation, supporting long-term success. With NEXUS, progress is sustainable, reliable, and profitable.
